Dear Josh

Thanks for keeping me posted. So far I have avoided notoriety. But I am anxious to know what is going on and appreciate hearing from you.

Merle Tuve wanted the Dept. of Terrestrial Magnetism on the paper. More copies coming by slow freight.

The manuscript has been sent in but Graham Du Sane is away at the moment. Will let you know what happens.

Where can I get a copy of the Russian Sympos. on Origin of Life? If I can borrow yours I can get it duplicated.

I don't want to get any moon dust via the Air Force. I agree that the best way is

Through NSF etc. I'm perhaps I'll be
interested. I like our "Pacific ~~Isle~~" Test much
better for the moment

See you soon

Regards

Dean
